Message from the IACEE President

My Dear IACEE Colleagues:

We just returned from our Winter Executive Committee Meeting, held in San Antonio, TX, USA where we firmed up our 16th World Conference planning and tracked our progress in accomplishing the strategic goals in the following four themes:

1. Global Initiatives
2. Strategic Partnerships
3. Products and Services
4. Member Engagement and Communications

We have achieved many of our goals, but we need to work hard to achieve the rest. We will be reporting our progress to the membership during the upcoming conference in Monterrey, Mexico on 22-25 May 2018.

Speaking about the conference, have you accessed the [website](#) lately? The early bird registration ends on 31 March 2018. As a member of IACEE you can substantially save on registration. If you are not a member, by virtue of registering for the conference, you will automatically become a member for one year. The conference will showcase work from IACEE's global membership and will have keynote speakers who will focus on the trends and future of continuing engineering education.

I also wanted to share some good news with you. Dr. Nelson Baker, secretary-general of IACEE, has been elected as the 2019-2020 President of [University Professional and Continuing Education Association](#), one of the leading and prominent organizations in professional, continuing and online education in North America. Please join me in congratulating him for his new achievement.

Lastly, may I request you to nominate a colleague or yourself for a Council seat? Please send your nomination to our past president, [Kim Scalzo](#), by 30 April 2018. This is your opportunity to network with your international colleagues and a perfect opportunity to contribute to the international projects.

Thank you for your continuing support to IACEE and I look forward to seeing you at the [16th World Conference on Continuing Engineering Education](#) in May.

Warm regards,

Soma

Soma Chakrabarti, PhD
President, IACEE

16th IACEE World Conference

Keep in touch with conference developments through news items on the IACEE website (www.iacee.org), and through the conference website (www.iacee2018.org). If you have any questions about the event, contact Lucia Juarez Santana at lucia.juarez@itesm.mx.

Workshop: Success Factors for University-Industry Partnerships

22 May, 2018, 13:45 – 17:30, Tecnológico de Monterrey

Learn how to be successful in creating and further developing strategic partnerships between your university and local and international corporations.

This workshop gives you a unique opportunity to learn about the success factors for strategic university-industry partnerships. The workshop is based on the knowledge and expertise from leading university practitioners from Stanford University, Georgia Institute of Technology, Massachusetts Institute of Technology, Aarhus University, and the International Association for Continuing Engineering Education, itself.

In addition, you will learn how to use the **Industry Partnership Canvas** to assess and further develop your current industry partnerships. The canvas is based on years of research, numerous case studies from practice, advice from over 10 multinationals, and experience from both business and universities.

Meet and network with other leading university and industry professionals.

Presenters

Nelson Baker, Ph.D.

Dean, Professional Education, Georgia Institute of Technology

Soma Chakrabarti, Ph.D.

President, International Association for Continuing Engineering Education

Lars Frølund, Ph.D.

Research Affiliate, MIT Innovation Initiative & Development Manager, Aarhus University

Paul Marca

Associate Vice Provost, Stanford University

Webinar 3 – The Future of Credentials in Engineering Professional Education

THE FUTURE OF CREDENTIALS IN ENGINEERING PROFESSIONAL EDUCATION

**MARCH 22, 2018
10:00 a.m. (EST)**

**Nelson Baker, Ph.D.
Dean of Professional Education
Georgia Institute of Technology**

Rapid developments in science and technology have resulted in a shorter lifespan for the traditional college degree. Thought leader and dean of Professional Education at Georgia Tech, Dr. Nelson Baker, will explore the future of credentials in engineering in today's webinar, broadcast live from the Georgia Tech Global Learning Center.

Registration: <http://bit.ly/2FEBMV7>

Not able to join us live? Keep an eye out for the recording, which will be posted to [IACEE's website](#).

Don't forget to "like" the [IACEE Facebook Page](#) to stay informed about upcoming events & read the latest IACEE news. We would also love to have you join the [IACEE Facebook Group](#) to see what other IACEE members are doing in the continuing education world.
