Porto Declaration
May 20, 2016

Whereas the International Association for Continuing Engineering Education (IACEE) was founded in 1989 to foster a global network of organizations promoting lifelong engineering education;

Whereas the IACEE recognizes the scale and complexity of the gap between existing solutions and the needs facing our planet and that the IACEE is uniquely placed to act on this opportunity;

Whereas the IACEE seeks to pivot the organization to connect individuals, universities, industry, government and NGO organizations to meet the grand challenges facing humanity;

Now therefore in keeping with its dedication to leading life long learning, the IACEE will develop global initiatives to address those 21st century challenges threatening the survival of human kind through collaboration, design, creative thinking and engineering.

We the undersigned do hereby declare this at the IACEE 2016 Global Conference in Porto Portugal and pledge our commitment in actioning this call to service.

Soma Chakrabarti
IACEE President 2016-2018
UNIVERSITY OF DELAWARE

Nelson Baker
